

## WELL KNOWN MISSOURI FOLKS

St. Louis, Mo.—"Dr. Pierce's medicines have been a wonderful help to me. Some years ago during each winter I would get run-down and catch cold, which would leave me with a very bad cough that usually bothered me nearly all summer. I took Dr. Pierce's Golden Medical Discovery and it cured me so completely that I have never had any return of this condition. I have since taken Dr. Pierce's Favorite Prescription during expectancy and afterward with wonderful results. No woman should try to go through this condition without the use of 'Favorite Prescription.'—MRS. M. A. HARRIS, 1450 S. Cardinal St.

### A Woman's Weakness—Operation Was Advised

Carrollton, Mo.—"I was very poorly with woman's weakness. Had consulted with three doctors and they all advised an operation. A lady friend advised me to try Dr. Pierce's Favorite Prescription. I was in bed when I began to take this medicine, but by the time I had taken half a bottle I was up on my feet. I took seven bottles in all and was then well enough to do all my work and felt fine. I got very stout and felt just as I did when I was young. It is certainly a grand medicine and I have often recommended it to others."—MRS. MARY STANLEY, 211 E. First St.

### When Run-Down and Nervous

Chillicothe, Mo.—"For four years I had pains in my back and in the back of my head. I was all run-down and nervous. Was practically in bed for a year. My mother advised me to try Dr. Pierce's Golden Medical Discovery so I took it and was helped almost at once. I only took three bottles of it and have been better ever since that time. I know it is a fine medicine."—MRS. G. D. MARPLE, 421 East First St.

## Acid Stomach Makes the Body Sour

Nine Out of Ten People Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folks who have taken EATONIO with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

# Salmon Fleets Sail for North

"Windjammers" in Vanguard of Fish Hunters Include Some Famed Boats.

## RECORD CATCH NOT EXPECTED

Many Alaska Canneries Plan to Reduce Their Pack This Year and Others May Not Open at All.

Seattle Wash. — Big full-rigged "windjammers," some famous as American clipper ships long ago, already are spreading their sails and heading for Alaska, the vanguard of summer salmon fleets which go north every year to work with the scores of fish canneries that dot northern harbors and inlets.

Dozens of other craft, steamers, gas boats, barges and tugs, are going north with the sailing ships. Before winter they will all come plowing back with this year's fish catch canned and packed and stored in their holds.

No record salmon catch is expected this year, according to reports from Alaska. Most of the southeastern Alaska canneries expect to reduce their pack this year from one-third to one-half normal and several will not operate at all. One cause for the cut is the fact that all of last year's pack has not been sold. Low markets are given as another reason.

Short Catch Last Year. Alaska's salmon output last year was 4,592,201 cases, the smallest since 1915. The high-water mark of Alaska's salmon years came in 1918, when, in response to a war call for food, the canneries sent 6,607,569 cases out.

Most of the salmon are packed in southeastern Alaska, a strip of territory that juts south between northern British Columbia and the Pacific ocean. Last year southeastern Alaska fisheries turned out 3,108,364 cases, against 775,557 from central Alaska and 708,280 from far western Alaska points. The central Alaska plants extend from Cape St. Elias westward to the Alaska peninsula. The far western plants are on the shores of Bristol bay and the Bering sea.

About 125 salmon canneries were operated in Alaska last year by nearly ninety companies. Several big concerns operated more than one plant, the Alaska Packers' association leading with ten. Libby, McNeill & Libby were second with nine. The Northwestern Fisheries company operated seven and the Pacific American Fisheries company four.

Many from Puget Sound. Nearly all the boats of the fishing fleets sail north from Puget Sound, altho one of the largest fleets, that of the Alaska Packers' association, makes its headquarters in San Francisco bay. The Libby, McNeill & Libby and the

Northwestern company boats winter here, the Libby boats riding in the fresh water of Lake Union. The Pacific American company operates from Bellingham. Portland, South Bend, Everett, Olympia, Astoria, Anacortes and other ports send their share of fishing vessels north.

Five or six thousand men are going north to spend the summer working at the fisheries. In the fall they will come back with the boats and the catch. For several weeks passenger steamers running to Alaska have been carrying capacity lists of cannery employees. The Northwestern and the Anacortes Fisheries company, both subsidiaries of the Booth Fisheries company, will use 1,500 men in the north this year.

## CLOTH FROM HAIR OF COWS

Experiments at Pottsville, Pa., Show Products Closely Resembling Cheviot.

Pottsville, Pa. — Men's clothing made out of cows' hair will soon rival the wool taken from sheep, declare agents of a packing company, who have been experimenting with the product here. The new cloth resembles cheviot.

Cows cannot be clipped like sheep, but the hair can be taken from all steers killed, which, it is said, would make clothing for half the men in America.

# Crush Strikes at Inception

Spain Uses Iron Hand and Claps Labor Leaders Into Jail.

## BIG BUSINESS OPTIMISTIC

Republic Is Long Way Off, Is Opinion of British Government Official Who Has Been Making Study of the Situation.

London.—Big business men of Spain are backing their faith in the future stability of Spain by spending their money on big projects in their country.

England, it is stated, is apt to have nationalization of mines and railroads long before Spain overthrows the monarchy and sets up a republic.

This is the gist of what a British government official and business man

## Musicians Discover Tune Played By Submarines

London.—The tune which the deadly submarine played as it moved beneath the waves was discovered by an admiralty official who was an expert musician.

It has just been revealed that when the sea lords were seeking means of detecting the approach of a submarine, Sir Richard Paget, stripped to the waist was lowered head down into the water. He came up humming the exact note made by the moving submarine.

From this small and strange beginning sound detectors were perfected which saved many lives and resulted in the sinking of many U-boats.

## Railroad Solves Important Problem.

Bedford, Ind.—Officials of the Monon railroad quickly solved the housing problem for Jess Enochs, in charge of a section gang at Salem. The house occupied by Enochs and his family had been sold and there was not a vacant one in town, so the railroad sent a combination sleeping and dining car, which Enochs has transformed into a five-room bungalow.

## It Works.

LaGrange, Ky.—The new siren burglar alarm at the People's bank, which works automatically with the opening of any door or window of the bank, is a success. Every male citizen started out ready for action at midnight during the high wind, but found it was a false alarm.

said after a month's trip through Spain.

"Reports of strikes and rumors of revolution in Spain have been numerous.

## Throw Leaders in Jail.

"But," said this official, "far from closing its eyes to strikes, the government seems to have a very summary way with them. In fact, it has a way which would not be attempted in Anglo-Saxon countries.

"The military promptly clap the leaders of the strike into jail, and it naturally dies down after that.

"The only trouble I saw in Madrid was a lockout by the employers against the employees in the building trades.

"It lasted in Spain for weeks and weeks before it was finally settled.

"I asked the Spaniards what would happen if there were a big national strike of railway men.

"The response was that most of the railroaders were of military age; that they would be promptly called back to the colors; that they would be enrolled in regiments of railway engineers and put back to work on the railways—not as employees of the roads, but as soldiers of the nation. Whether such a drastic program would be carried out I do not know, but it was discussed quite freely.

"Business men told me there was not as much unrest in Spain as there was in England, France and America.

"Spain is suffering from the same malady all civilized countries are suffering from—high cost of living and a consequent insistent demand made by the working class for much higher wages. The same vicious circle is being gone through with in Spain."

## Sees Business Growth.

He said he found business men in Madrid, Spanish, English and French, preparing to invest their money in very large Spanish projects, which was the best sign that no serious trouble was looked for.

"In Spain," said he, "business men have a cynical saying that the revolution is always going to happen tomorrow, but that tomorrow never comes.

"Of course, there is dissatisfaction in the industrial cities, but 80 per cent of the people of Spain do not live in the cities, but are peasant farmers, loyal to church and king, and for the most part indifferent to politics."

# Music Quells Riot in Lucca

Italian City Is the Scene of Extraordinary Incident.

Bohemian Lad Playing on Hotel Balcony at Lucca Halts Mad-Denied Throngs.

London.—Lucca was the scene of an extraordinary incident recently which recalls the classic fable of Orpheus with his lute, who charmed wild beasts with his music.

So says a Milan dispatch to the Daily Telegraph, and goes on: "The playing of a boy violinist suddenly halted a mob in the streets of Lucca and the rioters abandoned their violent purpose. The violinist is Vosa Priokda, a Bohemian lad of eighteen, who wandered to Venice fourteen months ago and was at Lucca during the Socialist agitation. A great crowd assembled, Enrico Malatesta, an anarchist lead-

er, made a harangue which excited his hearers to fury and, ready for any excesses, they started through the main street to the public square.

"On the balcony of his hotel near the entrance to the square, the Bohemian boy was playing his violin to a few admiring people below. The first of the mob reached this group, listened to the violinist and remained fascinated by his playing. All the others stopped to listen and as the boy continued playing their fury subsided. Instead of smashing heads they applauded him, and half an hour later were all walking quietly to their homes."

## Hogs as Government Aids.

Lexington, Ky.—Five moonshine stills were raided by officers working here and in each instance hogs feasting on mash gave the cubs. No arrests were made, lookouts firing signal shots to tip off the "shiners."

# Where is Relief From Blazing Skin Diseases?

## Must I Endure Forever the Torturous Itching?

The skin is fed from the blood, and upon the condition of the blood depends whether or not your skin will be healthy and free from boils, pimples, scaly irritations, red eruptions and other disfiguring and unsightly disorders. The sensible treatment that will show real results is a remedy that

will cleanse the blood thoroughly and kill the germs that cause the trouble. And for this purpose no remedy ever made can approach the record of S. S. S. which cleanses the blood of the disease germs, at the same time building up the general health.

**LITTLE CHANGE IN PHYSIQUE** **CLOSE STUDENTS OF NATURE**

Report That Average Stature of American Men Was Affected by War Declared Untrue.

The wholesale clothing manufacturers assert that there has not been any change in the size of their garments since the war. They are manufacturing more garments, but the proportion of larger sizes is no greater now than it was three years ago. In short, their size patterns have not changed. Yet changes would be necessary if the stature of American men had been affected in any appreciable way by the year and a half or two years of military training.

Manufacturers of ready-to-wear shirts and undergarments agree with the clothing manufacturers that there has been no change in their size patterns despite the reports of numerous individuals who take "a size larger" today than they did before the war. As one manufacturer put it, the proportion of soldiers who need larger sizes in shirts or suits today than they did two years ago is so small that it has no effect on wholesalers. Salesmen naturally remember certain individual cases of increased chest development, but, taking the country by and large, there has been no appreciable change in the physique of the male portion of the population, at least as far as their clothing is concerned.

## Didn't Fill the Bill.

One day as Harold's father was hanging up a few pictures Harold begged him to let him hang one up. His father gave him a small one and walked into another room. When he returned he found Harold sitting in a chair puffing and mopping his forehead.
